Why SMART CITIES matters for Lefkada

An island municipality with high visitor pressure needs clean, viable and smart urban services

- Island pressure**
 - Compact coastal city
 - Seasonal visitor flows
 - Demand on public space
- Public space quality**
 - Cleanliness
 - Accessibility
 - Tourism image
- Low-pollution operations**
 - Electric municipal equipment
 - Lower noise
 - Lower local emissions
- Smart city pathway**
 - SFO + digital actions
 - Data and monitoring
 - Replicable methods

SMART CITIES helps Lefkada move from planning to a practical, low-pollution municipal service pilot.
